

JUN 01 - TIME FOR A BREAK!

We drove to Burney Falls State Park today and immediately turned around and headed back towards Cave campground in Old Station, CA. The sign said \$35 per site. I asked what came with each site. "Nothing." \$35 for an unserviced site?! No water, no power, no sewer??!! Just dirt?! You must be joking?! We turned around and headed back towards Old Station.

Just a short distance north of Old Station, we saw a campground sign. We pulled into the Bridge campground, selected a site, paid our \$10/night fee for 2 nights, and began to relax after two days and over 500 miles of driving. Who knows we might even stay a third night.
