

JUN 15 - HOMEWARD BOUND!

Jarda was making a breakfast frittata when we appeared at the scheduled time of 07:30 for breakfast. Mmmmm that was excellent! We will come back here again!

After breakfast we walked down a path to the ocean.

We could stay here forever! The young folk sure have a nice place!

We left Sooke and headed up Island. The weather turned nasty and we drove almost the entire way in the rain.

We arrived at our good friends Betty and Frank's place early afternoon and I set up camp in the rain. Ahhhh **it is good to be home again.**

We left the Island on Wednesday April 19 and returned home 2 months and 2 days later.

Total mileage: 5,907 miles (9,451 kms).
